innovation in operation

INTRODUCTION

We have a duty to create opportunities to better serve the patient. In so doing, we are reducing the risk of asepsis that may lead to complication for patient recovery after surgical procedures. At [BlueKit Medical](#) we are leading the way in the critical field of the patient journey through surgery: our solution is the Procedure Pack.

Our Procedure Packs are designed to enhance patient well-being and support healthcare professionals.

Thousands of different single-use items are used in the operating theatre every day to cater for each and every surgical procedure. This demonstrates the dynamic development of surgical practice and reveals why the setting up for surgical procedure has become increasingly expensive, difficult and time consuming for the entire surgical team. Bluekit Medical seeks to provide innovative and practical workplace solutions, accommodating these ever increasing demands.

BlueKit Medical is a manufacturer of uncompromised quality sterile procedure packs and single-use instrument sets for medical professionals. We supply bespoke procedure packs and single-use instrument sets to the NHS and private sector hospitals and clinics for use in operating theatres, day units and outpatient departments.

In maintaining the highest quality without compromise, we provide solutions for dental surgery, minor surgery, gynaecological surgery, podiatry; we provide major packs for orthopaedic surgery, cardiac surgery, neurological surgery, general surgery, laparoscopic surgery, urological surgery and custom made packs for other specialties.

Our high standards and dedication to detail are reflected across BlueKit Medical: beginning with our manufacturing partners' sites, which adhere to ISO 9001, ISO13485 and CE marking, through to our quality control, packaging, sterilization and onward supply to end users.

If you require any further information, we are just a phone call away. We can be reached on **+44 (0)208 407 0547** or alternatively you can send us an email at **info@bluekitmedical.com**

To view our range of products, visit us at www.bluekitmedical.com to see why we are leading the way in procedure packs.

The logo for BlueKit Medical, featuring a large white capital letter 'B' on the left and a smaller, bold black lowercase letter 'k' on the right, positioned slightly higher than the middle of the 'B'. The letters are set against a solid blue background.

PRODUCTION

All of our instruments and consumables are manufactured to the highest standard and our associate manufacturing companies are all ISO compliant. All BlueKit Medical instruments are CE marked. We are proud to assert our conformity to essential requirements and move further still to enhance our products to lead the way in creative process: respectively, we are pleased to champion our products with our logo etched upon all of our instruments.

We physically inspect, ultrasonically wash and dry our instruments before any packaging process and sterilization: our packages are in perfect condition when they arrive at their destination.

DISTRIBUTION

Whether ordering just one box or a large consignment of packs or sets, we have an extensive network of couriers (national or international) to ensure that all goods are delivered in time, every time. **Our staff are here to ship your orders expertly and promptly.**

CUSTOMER SERVICE

We are a nice bunch and will handle all your orders or enquiries with care and professionalism in the shortest time possible. **Should you have a query or require a quotation we will do our utmost to respond immediately.**

QUALITY CONTROL

Our UK packaging company is based in Sheffield where the quality control department is staffed with experienced personnel to effectively deal with all aspects of the quality of consignments. With a wealth of experience, our staff will ensure that effective sterility methods are applied judiciously, whether by Gamma Irridiation or Ethylene Oxide. In addition, we guarantee regular testing for sterility of each of our products, making certain that sterilisation will never be compromised.

EXPORT SERVICES

With international representation, we have experienced and helpful staff prepared to visit our customers abroad. Our international representatives will be able to offer the full range of BlueKit Medical products. If you wish to contact a BlueKit Medical representative, please visit www.bluekitmedical.com
